

H2O Liv Pro

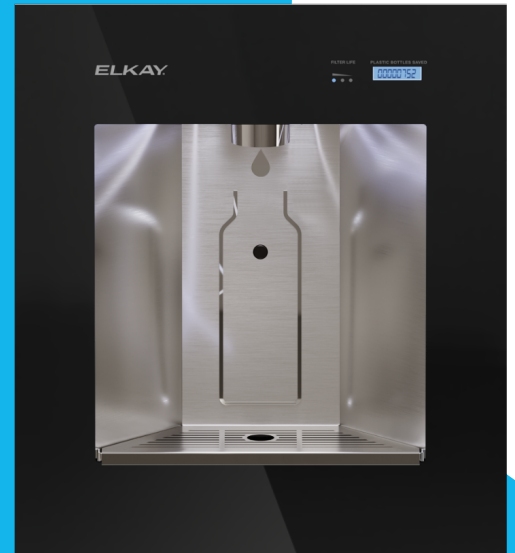

In-wall filtered bottle filling station

A sustainable way to offer fresh, hygienic filtered water. This contactless water dispenser is designed for commercial and hospitality environments such as hotel lobbies and corridors, conference rooms, meeting spaces and even for sustainably conscious homes. The self-serve operation encourages use of own re-usable bottles whilst also raising awareness of single-use plastic reduction with its digital bottle counter display.

- Sleek in-wall design
- Filtered water
- Bottles saved counter
- Sensor activated
- In-built drip tray with optional drain connection
- Optional pairing to chiller

Technical specifications

Chilling capacity	Non-refrigerated
Weight (kg)	12
