

# Countertop boilers (tap)

Countertop boilers save time and money by providing a constant supply of boiling water on demand.

These units are permanently plumbed in and as water is dispensed the unit refills, allowing you to draw off multiple cups of boiling water at any one time, making them ideal for busy workplaces.

- Energy efficient water boiler
- Connects to main water supply
- Limescale reduction filter
- Stainless steel design for easy cleaning
- Ideal for busy kitchens and breakout areas
- Easy to use lever tap dispense
- Optional hygienic push tap upgrade available

## Technical specifications
